

# CAC Login

## Linking a CAC with an existing account - Method 1

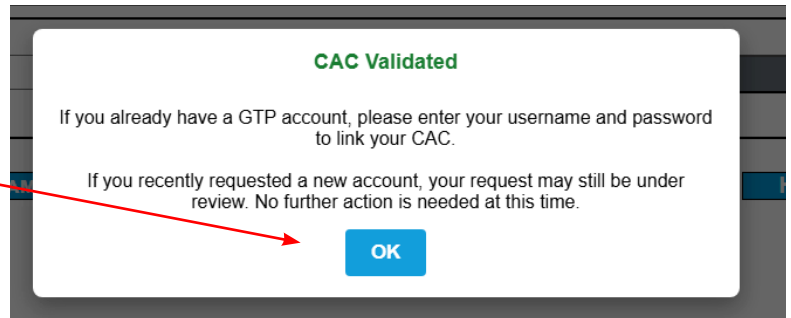

1. Navigate to gtp.health.mil and select Log in with CAC

20 Dec 2025: CAC Login is coming to GTP early 2026.

<input type="text" value="Username"/>	<input type="password" value="Password"/>	<input type="button" value="Log in"/>	<input type="button" value="Log in with CAC"/>
---------------------------------------	---	---------------------------------------	--

2. You will then be presented with the following message confirming your CAC has been validated.

3. Type in your username and password, then select Log in to link your CAC

20 Dec 2025: CAC Login is coming to GTP early 2026.

<input type="text" value="marc.eble"/>	<input type="password" value="....."/>	<input type="button" value="Log in to link your CAC"/>	<input type="button" value="Cancel"/>
--	--	--	---------------------------------------

4. You will receive a confirmation that your CAC has been Successfully Linked.

# CAC Login

## Linking a CAC with an existing account - Method 2

1. Log in to gtp.health.mil with your username and password. Then go to your profile by clicking on your username in the upper left corner.

2. Once you have successfully registered a CAC, you have two options for login:

**CAC + PASSWORD:** This will give you the option to log in with cac, or utilize a username and password. Under this option, you will still be prompted to change your password according to DoW standards, currently every 60 days, regardless of how you normally log in. This is useful if you have operational need to utilize GTP from systems without CAC readers.

**CAC ONLY (PREFERRED METHOD):** This option will require you to always login with your CAC. You will not be required to set or maintain a password.
